University of Michigan Neuroscience Graduate Program

COME JOIN US THIS SUMMER!

Events:
- Research projects
- Summer Journal Club
- Social events
- Poster Presentation
- Professional Development

The Neuroscience Graduate Program hosts summer research opportunities, including internally funded positions. Please contact us for details.

In partnership with NIH BP-ENDURE (Blueprint for Enhancing Neuroscience Diversity through Under-graduate Research Education Experiences) grants we provide a 10-week summer program.

Consider our summer program as an option for students involved in various programs (RISE, MARC, BUILD PODER)

Other opportunities that exist at UM can be found here: https://medicine.umich.edu/medschool/education/non-degree-programs/undergrad-summer-research
