NGP DEI

Recruitment and Admissions Task Force

Our mission is to increase transparency in recruitment and admissions policies, ensure holistic admissions reviews, enhance partnerships with minority-serving institutions to support recruitment goals, and increase equity by educating prospective students on the recruitment and admissions process.

ACTIVITY UPDATE 2/2021

• We are committed to greater transparency in recruitment and admissions policies, sharing demographic data on our website regarding the pool of applicants, offers, admittees, matriculants, and graduates.
• We have established a holistic admissions application and interview process. Details about the admissions process will be continually updated on the NGP website to improve transparency in what we are looking for and in how students are evaluated. All admissions committee members will be required to attend the UM Rackham Graduate School workshops on Holistic Review of Applications for Admission to Graduate Degree Programs.
• The admissions committee will be composed of both faculty and current NGP students.
• During recruitment events, we are committed to demonstrating our commitment to DEI without tokenizing our underrepresented faculty and students. General program-wide requests will be made when requesting faculty and student volunteers for recruitment events.
